## About Us

We are MANUFACTURER of Wall mount stacker. We are offering a quality range of Wall Mount stacker to the esteemed customers. Our range of Wall mount stacker is made available in different models, capacities and other specifications to cater to varied clients' requirements. We Supply Wall Mount Stackers In All over India

Our company has gained immense accolades in the field of offering WMS Single Mast Stacker to the clients. Wall mounted stacker single mast is widely demanded in the market due to sturdiness. Offered range is widely appreciated among our prestigious clients for robust design and hassle free performance. This product is widely used in sugar industries and is made using quality assures raw material and advanced technology to meet the variegated preferences of clients. Offered range is duly checked by the quality controllers on various parameters before the delivery to the valuable customers.

## Advantage

### Power consumption:

Hydraulic lifts, undoubtedly, are the ones that set the standard in energy savings when used only in the promotion process, as the lower uses gravity.

### Installation Area :

Designed to Fit Your Specific Application, Location, and Lifting Needs, Minimal Room Required for Installation, Lower Cost Alternative to Personnel Elevators and Forklifts.

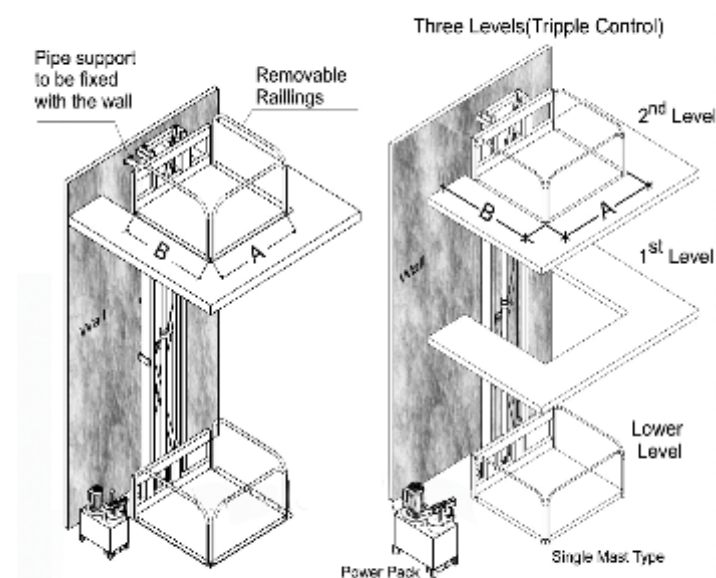

### Traveling :

Designed to Run Continuously with No Down Time, Quiet & Smooth Operation.

### Service :

We are proud of our team of Product Specialists and Engineers at Custom Industrial Products. From concept all the way to installation, we will find ways to allow your facility to run smoothly and safely.
